THE BEE HIVE!

It is generally known that G. Cox & Son will retire from business on July 15th. It was with much regret we herald this bit of news, for Maysville, Mason county, aye Kentucky, can little afford to lose such a store—a store whose watchword was reliability. The word reliable was stamped on the back door as well as the front; the word reliable was stamped on the yardstick as well as the goods and on the paper as well as the string. Eighty-three years of trustworthy merchandising has left an everlasting monument to the merchants of Maysville to emulate. May their new plans bring health, happiness and prosperity.

PEOPLE WHO CAN'T SLEEP

Many people go to bed—not to sleep, but to think—to tumble and toss—to get up, walk about until tired Nature gives way and a few fitful hours of sleep are obtained just before dawn—a sleep that does not rest—a sleep from which one wakes weary and tired, wholly unfitted to take up the daily routine of household shop or office duties. That this condition goes on unheeded for is almost criminal, when the well-known, time-tried and tested powers of Dr. A. W. Chase's Nerve Pills to give restful natural sleep have been so fully proven in such cases.

Mr. F. Jones of No. 107 Union street, Maysville, Ky., says:
 "I was troubled with nervousness, sleeplessness and dizziness. Hearing of Dr. A. W. Chase's Nerve Pills I decided to try them. I got a box at Chenoweth's Drugstore and as a result of their use my nerves are again steady—I sleep well and have no more of those distressing dizzy spells. I can truthfully recommend this medicine as an excellent nerve tonic."

SHRINE OF LEARNING.

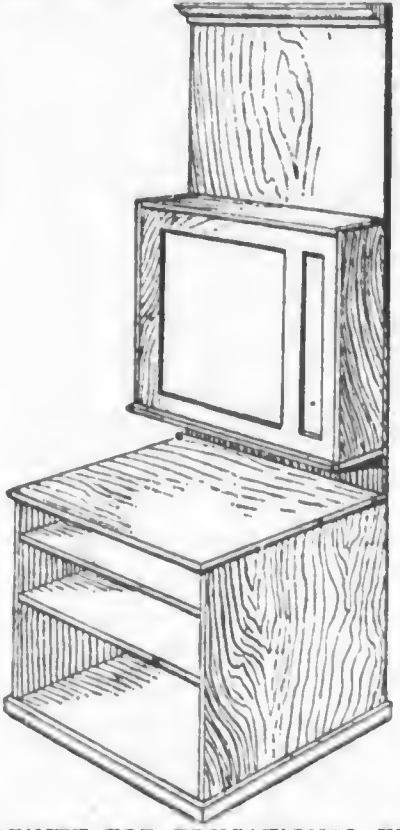

More Details of Kentucky Educational Display.

IS INTERESTING ALL THE SCHOOLS.

Exhibits Asked For by Chairman Brownell From Every House of Learning in the Commonwealth—Complete Instructions For Collecting an Attractive Display.

No exhibit is to be made at the World's fair by Kentucky that will appeal to a greater number of people than the display planned by the Kentucky Exhibit association of the educational affairs of the state. There are over half a million children in the commonwealth within the school age limit. Nearly 50 per cent. of these are supposed to attend school at some time each year. If not for a ten months' session or a five months' session, for a few weeks at least.

That the display along educational lines may be as perfect as possible, Professor H. C. Brownell, chairman of the committee in charge of this department, has issued a second circular of instructions to the educators of the state, to guide them in preparing their exhibits. He has left nothing unsaid that should be told. The circular was submitted to Mr. Howard J. Rogers, Chief of the Department of Education of the exposition, who wrote Professor

CABINET FOR EDUCATIONAL EXHIBITS.

Brownell that he had read it with great interest and that it seemed to him admirably fitted to give the exact information to the schools which was necessary for an intelligent preparation of the exhibit. The circular is sub-divided as follows: General outline, statistics, equipment, photographs, installation, collection, material, manual training, written work, advanced schools, etc.

In introducing his circular, Professor Brownell says:
 "An exhibit of a school system, to justify the expense and time incurred in its preparation, should make prominent two features—first, scientific preparation, and second, accessible installation."

"The exhibit should be founded on the curriculum and arranged so as to illustrate it, inasmuch as the curriculum embodies the best thought of the school authorities for the success of the school. For this reason a chart showing the course of study for each year or grade, as the case may be,

VARIED INDUSTRIES BUILDING.

should be prepared and made the center-piece of the exhibit of that year. Each subject in the year's course of study should be represented in the exhibit by showing the length of time devoted to it; the nature of the class exercises; specimen work of the pupils illustrating the subject; description of teaching methods; and photographs of the recitation rooms and of the pupils and teachers engaged in the various exercises connected with the subject.

"The method above outlined for the development of one grade, applies to every other grade or year of school work from the kindergarten through the high school. The method of representation can be varied according to the ingenuity and inventive ability of the one preparing the exhibit."

Professor Brownell then takes up each classification separately and goes into detail as to the preparation of the exhibit.
 He announces that for installing the exhibits in the various schools and grades a series of units will be used; each unit will consist of a wall cabinet with a space above it for charts, maps or pictures, and a space beneath for the storage of books and portfolios.

Herewith is shown a cut of one of the units.

He announces that for installing the exhibits in the various schools and grades a series of units will be used; each unit will consist of a wall cabinet with a space above it for charts, maps or pictures and a space beneath for the storage of books and portfolios. Herewith is shown a cut of one of the units.

It is stated by Professor Brownell that photographs will form an important part of the educational exhibit. He says on this subject:

"The use of instantaneous photography can not be overestimated in the preparation of an exhibit and the work of almost every phase of school life can be placed before the visitor in the most attractive and striking form. One of the exhibits which attracted the most attention at the Paris exposition of 1900 was the photographic exhibit of the Washington public schools, wherein were displayed not only the usual subjects exemplified by photographs, but the excursions to art galleries in connection with their composition lessons, to the fields in connection with their nature study work, and other similar features."

It is suggested by Professor Brownell that teachers begin at once collecting materials for these exhibits. There remains less than one full year in which to get work ready to ship to St. Louis, and during this time samples of work of every description can be selected and mounted on the standard cards and laid away until the full collection, illustrating a full year's work, shall have been made. Professor Brownell closes his circular with the following interesting bit of information and suggestions:

"While certain features of school training, drawing, etc., are capable of more attractive demonstration than others, there is no department of life, such as manual training, physical school or college life which can not be so fully and systematically exemplified as to give a correct idea of the work accomplished. The experience gained in the Chicago and Paris expositions has so developed the 'exhibit idea' throughout the country that the discrimination, selection and arrangement of exhibits is well understood, and varies only as the taste and originality of the exhibitor."

"It is not the great bulk of material that is impressive, but care in selection and system in arrangement."

"We are especially anxious to secure good exhibits from our rural and mountain schools, in order that we may demonstrate to our friends in other states that we are not so backward in educational matters in these districts as many imagine."

Teachers and principals and superintendents are invited to correspond with the chairman or members of the committee with regard to proposed exhibits."

Mr. Rogers of the exposition has permitted Professor Brownell to add at the bottom of his circular that it meets with the full approval of the exposition authorities.

"THE PIKE" WILL BE FAMOUS.

The lighter side of the Louisiana Purchase exposition will be shown in a street of concessions longer and with more picturesque setting than any of its midway predecessors. While the street will teem with amusements of every kind it is proposed to have them of a higher character and to require the expenditure of more money upon them than has been the case at other expositions.

This interesting section of the World's fair grounds at St. Louis has been officially termed "The Pike," and it is destined to become one of the famous spots of the earth.

Already many amusement concessions have been let, many of them of the kind one expects to see at an international exposition. Two of them that possess unusual merits are the repro-

Make all the hay you can. Providence helps them who help themselves. A good high price is offered you for hay. Help yourself by saving all of your grass. **MINNIE MOWERS AND RAKES** will cut and save anything that grows out of the earth! There is a big difference in mowers. Some cut well but are horse killers. Others run light but rack to pieces in a few short years. **THE LOST IS FOUND!** What you have been looking for is a grubbing machine that will not ruin your team.

MINNIE'S GUARANTEE. Is that she will cut anything from bluegrass to briars and run lighter to your team than any other mower made! The Minnie is Bicycle Bearing throughout, high wheels, wide tread, and has a pitman rod 40 in. long. Compare this high wheel, wide-tread mower with others having a 24 inch pitman rod, and it will make them look like 30 cts. badly mutilated. The Minnie Mower is strong where others are weak, and that is in the cutter bar joint. We guarantee the hinge and shoe upon the Minnie to weigh four times as much as the hinge and shoe upon any other mower.

A MINNIE CUTTER BAR WILL STAY IN LINE. We ask you in all fairness did you ever see any other mower that the cutter bar would not drop back out of line? You know full well that when the cutter bar sags back the sections all cut into the guards and the machine chokes continuously.

The Beautiful Minnie Mower has overcome this greatest objection to all mowers.

AN INGENIOUS PATENT. And well worth your inspection is the Foot Lift upon the Minnie Mower. It is a Yankee trick sure; the cutest thing that we have ever seen.

SIMPLE ENOUGH AFTER YOU KNOW HOW. And any of us ought to have had sense enough to have invented it. Listen! One single lever raises and lowers the cutter bar and locks and unlocks the cutter bar when in an upright position! All done with one lever without getting off the seat! Wonderful but true.

THE MINNIE RAKE IS UP-TO-DATE. And we earnestly ask all of you to call and look at the new patents upon both the mower and the rake whether you have any idea of buying or not. Call and see the new patents. Delighted to show them to you.

WE TRADE MOWERS. Bring in your old worn out mowers and we will trade you a new one. We will give you more for your old mower than you will ever get again.

WE HAVE A PLACE FOR OLD MOWERS. Special contract. Competition not on to yet. We can give you three times as much for an old rattle-trap mower-as any one else can. **TRY US!**

THE OLD SETTLERS.

Their Annual Reunion at Ruggles Campgrounds Saturday.

The reunion of the Old Settlers' Association of Mason, Fleming and Lewis counties, and the Fourth of July celebration at Ruggles Campgrounds last Saturday was very enjoyable. The day was perfect, the crowd large, good humored and well behaved, and the program was interesting and well rendered, every one responding cheerfully to aid in making the occasion a most delightful one.

The choir, composed of Miss Hill, Mrs. Bane, Miss King, Mrs. Hook, Misses Goodwin, Cobb, and a number of others, with Miss Goodwin at the organ, added much to the enjoyment of the day by their happy rendering of the sweet old songs of long ago.

A paper read by Vice-President Robert Marshall, giving a partial history of the Marshall family, reaching back to the earliest known records in Westmoreland, England, with dates early in the seventeenth century, was very interesting to the residents of the three counties, where the family is so well known and highly respected.

The cantata "Columbia's Party," by a number of girls and boys under the direction of Miss Della Goodwin, was charming. Very interesting indeed were the "maids of '76" but even more so was the lovely Puritan maiden with her flat bonnet and demure kerchief.

The new officers are—
President—Dr. William Bowman, Lewis county.
First Vice-President—Robert Marshall, Fleming county.

Second Vice-President—L. M. Lane, Mason county.
Secretary—C. C. Degman, Mason county.
Treasurer—F. B. Trussell, Lewis county.

Following was the program—

9:30 a. m.—Song—"Auld Lang Syne."
Hymn—"America." Choir.
Invocation—Rev. Allen.

Welcome address—President Bowman.

4 p. m.—Closing Hymn—"Guide Me, Oh, Thou Great Jehovah."
Benediction—Rev. Gordon and C. C. Degman.

NOTES.

The Tintype man, with all his assistants, were kept too busy to participate in the lunch. Sixteen members of the Association, as reported to the Secretary, have passed to the great beyond within the year.

The paper to be read at the next reunion of the Old Settlers' Association is to be a history of the Means Barclay family.

The good things that were spread at the noon hour were beyond compare, and certainly the inner man was made to rejoice.

The decorations were more elaborate than on former occasions but not to compare with what they should be on Independence Day.

Much satisfaction was expressed over the courtesies extended the Old Settlers' Association by the Campmeeting authorities. Their commodious tabernacle, cool shady walks and splendid and abundant pure water were highly appreciated. Better each one carry a cup than wait so long at the well.

Fred W. Knapp and Miss Minnie Horsely of Vanceburg married at Portsmouth.

Mrs. Elizabeth Metcalfe, wife of Mr. H. C. Metcalfe, died the past week at her home in Brooksville.

One of the troubles with a great many Colored people is they seem to imagine that the Fourth of July, Sunday and Christmas, with many other things, were made for their exclusive benefit.

HIGH CLASS FEATURES.

Executive Committee Makes More Contracts For State Fair.

The Executive Committee of the Kentucky State Fair Association, which will hold its big fair at Owensboro beginning September 21st, has added some highly interesting free amusement features to its program, among them being Dr. Carver, the celebrated marksman; the eight wonderful horses which race at full speed without drivers; a race between a team driven by a bull-dog and a team driven by a man; four automobile races, one of which will be for amateur enthusiasts of Owensboro only; a fine foot ball game and mule and hurdle races.

In addition to the \$20,000 cash prizes for exhibits, there will be many prize silver cups offered by various Associations and individuals. The contracts for the big buildings will be let within a week.

Catalogues or any information can be secured by addressing Secretary L. B. Shropshire, Room No. 25, Board of Trade Building, Louisville, Ky.

The Foundation of Health.

Nourishment is the foundation of health, life, strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all foods into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. Indigestion, dyspepsia and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by J. Jas. Wood & Son.

The Doom of Tobacco Worms.

Nothing is more certain and satisfactory in destroying tobacco worms than Paris Green; but it is important that you use the best grade—the one that is strong and free from adulteration. There's a lot of difference in the quality of Paris Greens. Inert material is often used to add weight and increase profits.

Our Paris Green is Guaranteed Absolutely Pure.

It contains more destructive power to the pound than is contained in ordinary Paris Greens. Ours is the best grade and goes farthest, but it costs no more than the ordinary kind.

A Spraying Outfit

Makes spraying easy, quick and thorough. Our sprayers are simple in construction, will last a long time and are low in price.

Very Remarkable Cure of Diarrhoea.
"About 6 years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally I moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by J. Jas. Wood & Son, Druggists.

A Quart Baby.

Now and again there is an item in the newspapers concerning the birth of a puny baby so small that a quart cup holds it comfortably. If the article told all the facts it would probably tell also of a mother who in weakness and misery had looked forward to the baby's advent with shrinking and fear.

To have fine, healthy children the mother must be healthy, and it is the common testimony of mothers that the use of Dr. Pierce's Favorite Prescription not only promotes the mother's health but also gives her strength to give her child.

"Favorite Prescription" accomplishes these results by tranquilizing the nerves, promoting a healthy appetite, and giving refreshing sleep. It increases physical vigor and gives great muscular elasticity, so that the baby's advent is practically painless. It is the best of tonics for nursing mothers.

"I gladly recommend Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, of Niles, Northumberland Co., Va. "Before my third little boy was born I took six bottles. He is the finest child and has been from birth, and I suffered very much less than I ever did before. I unhesitatingly advise expectant mothers to use the 'Favorite Prescription.'"

Dr. Pierce now feels fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb which he cannot cure. All he asks is a fair and reasonable trial of his means of cure.

Dr. Pierce's Common Sense Medical Adviser, containing 1008 pages, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

CLOTHING TALK! s s s s s

There is something about the Hart, Schaffner & Marx Clothing by which you may identify them even more certainly than the label. It goes into them before the label. It is a style, a quality, a tailored-by-hand touch to them, a harmony of fabrics, trimmings, etc., a thoroughbred look about them never found in other clothing. The fact that we can't define it doesn't make it any less real. You can see it without fully realizing what it is. We can't show it or tell you fully about it until you wear the clothes. Then we won't need to. This incomparable line is for men and confined to us.

But we have provided as well for the boys and children. We invite inspection and comparison of both goods and prices.

OUR MERCHANT TAILORING DEPARTMENT, under the supervision of Mr. Charles F. McNamara, is the only one in the city paying Union prices and having all work done at home. Ask to see one of our made-to-measure Suits. You can get them cheaper elsewhere, but not like ours.

A Surgical Operation
Is always dangerous. Do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails. It has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of the piles since.—H. A. Tisdale, Summerlin, S. C. For Blind, Bleeding, Itching and Protruding Piles, no remedy equals DeWitt's Witch Hazel Salve. Sold by J. Jas. Wood & Son.

Grand Fire Slide for Life!

By Prof. Samuel Whittaker.

This is one of the most daring acts ever witnessed by the public. In this act Professor Whittaker goes on a high platform on the roof of the Amphitheater at the Fairgrounds from which there is a rushing cable 400 feet in length. His clothing is saturated with gasoline and set on fire, and he dives down the cable to a tank of water which he dives into and the flames are extinguished, making one of the most pleasing and exciting acts ever witnessed. It will be a grand feature of the World's Fair, Nashville Exposition and Paris Exposition. Should be called "advice through fire and flame." Don't fail to see it. If rain on any of the above nights, performance next fair night. Remember, everything is free.
